

MARVELLOUS AMALFI

According to legend, Hercules founded the village of Amalfi and named it after his mistress. The settlement became a powerful maritime republic of the High Medieval Period, largely thanks to the Tables of Amalfi Maritime Code, the oldest navigation code in the world. From this glorious past, the Amalfi Coast has retained oriental Arab-Sicilian and Norman influences. A striking mixture of tiny villages sit nestled at the foot of the cliffs and whitewashed houses are shaded by vineyards and olive groves. This varied itinerary enables you to discover the iconic city of Naples, the living Pompeii at the foot of Mount Vesuvius and the tiny coastal villages beneath the cliffs. Discover beautiful walks through the nature, hike along old mule tracks and explore Vesuvius, one of the most famous volcanoes in the world. Other trip highlights include hiking on the island of Capri! Throughout your journey, you will have the opportunity to meet local artisans and producers and you can taste the specialties of the Amalfi Coast.

Harmonising these fundamentals ensures a fair distribution of economic benefits, improved working conditions for local teams and an increased awareness of the importance and practice of environmental protection.

We kindly request that you adopt the following simple actions when travelling with Altai Réunion in order to support our ethical, sustainable and responsible tourism policies:

- Avoid dropping litter - use bins or carry your rubbish with you.
- Use drinking water sparingly - avoid wasting water, take showers not baths, report leaks, etc..
- Support the preservation of cultural sites - resist the temptation to touch statues, move stones etc..
- Exchanges are preferable to donations - generations gifts can destabilize the local economic balance.
- When walking, be aware of fragile ecosystems, observe wildlife from a distance, stick to trails, limit trampling and do not steal from the nature - resist the temptation to pick flowers, collect fossils or stones...
- Some hotels have air conditioning - to avoid excessive energy consumption and greenhouse gas emissions, please use sparingly and remember to cut the aircon when you are not in the room.
